(Start Belt #3)

we were meeting your requirements, when we put those amendments on. It suits me I'll be willing to go along with you.

SENATOR CARPENTER: And I will not hold it any longer than that, and they have other amendments. While we are talking on this thing, is this permissible Mr. President? During the time I was home, why I had a number of people call on me as the result of calls stimulated by others to contact me, which is alright, that's par for the course. Those who contacted me were somewhat in agreement but really if the laws on weights were unreasonable we ought to attempt to amend the bill in it's original form in order to raise those things to a realistic point where everybody would be more or less satisfied, rather than attempt to do something for a relative few people when maybe we ought to consider doing the thing for the overall. I'd be the first one to believe that the restrictive overall weights are now too low. I'd be the first one to agree that the highway patrol probably in many cases is over zealous in their enforcement of the law, and I think we ought to consider whether or not we want to raise the actual rates and the overall rates a nominal amount so that everybody would be treated alike, and that's the purpose I'd like to have the bill held over for awhile.

SPEAKER: Senator Carpenter is asking unanimous consent to bracket LB 152 for two days, are there any objections? Hearing none, so ordered, the bill is bracketed. Thank you Senator Cavanaugh.
